Variation - Replacement of existing dux quest pipe in wall			
08/09/2025-			
While carrying out the quoted work, sections of Dux Quest water pipe were discovered within the wall cavities. This was discussed with Tommy (agent), and a decision was made in the best interests of the customer to proceed with replacement. The affected pipes included the main hot water pipe off the hot water cylinder and the cold water pipe feeding the supply tank in the ceiling. The most practical solution was identified as rerunning new piping to connect with the existing fixtures, which was completed without the need for additional building work.			
All Dux Quest piping within the house has now been fully replaced.
